However, additional details called for by Integrated Finance had to be collected. At present only 58 number of Junior Hindi Translators are available in the subordinate officers of CPWD. Promotional Avenues for these Junior Hindi Translators would be available only after posts in higher categories are created. The question of cadre formation will also arise after sufficient number of posts are created. As the issue of creation of posts has been under consideration of Government, the question of fixation of responsibility for delay does not arise.

**Ban on use of timber in construction of buildings**

336. SHRI JAGDISH PRASAD MATHUR: Will the Minister of URBAN DEVELOPMENT be pleased to state:

(a) whether Government have banned or propose to ban the use of timber in construction of buildings by C.P.W.D. if so, the quantity of timber likely to be saved as a result thereof;

(b) whether Government propose to ask the State P.W. Department and private builders also to do the same;

(c) if so, the details of the proposals; and

(d) if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT (SHRI M. ARUNACHALAM): (a) Guidelines already exist for use of alternative substitute materials for conserving wood with a view to completely eliminate use of wood or reduce use of wood to the maximum extent in construction projects, it is proposed to consider substitute items of acceptable standard and durability available for different purposes, and thereafter issue orders for use of such substitute items from 1st April 1993. Since the quantity of wood likely to be saved cannot be assessed accurately at this stage, it is premature to indicate the likely savings of wood by use of substitute items.

(b) to (d) It is also proposed to bring this matter to the notice of all the State Governments for adoption by their construction Deparments. The State Governments can consider incorporation of suitable provision in the Building Bye-Laws of the local for substitution of wood by alternative material.
